There is no additional entry fee for this class. Classes subject to eligibility by lane assignment as determined by the event referee - class eligibility will be announced at the riders' meeting on Friday before the start of the event.

Note that a copy (do not send originals) of the rider's birth certificate is required for age verification for youth class riders - please submit with your entry form. If one or both parents will not be attending the event, you are required to have a minor release form filled out and notarized, which you must also submit with your entry form. The minor release form can be found here:

**2016 AMA Hillclimb
Grand Championship**
July 29th-31st, 2016

Be aware that machines can only be entered one time in a given class - machines can be entered in multiple classes, by the same or different riders, granted that all other class rules are followed. For example, Butch and Martha cannot both ride the same 250cc machine in the 250 class - however, Butch could ride it in the 250 class, and Martha could ride it in the Women's class.

All machines must comply with the AMA rulebook and any applicable supplementary regulations, such as use of tethered kill switches and functional brakes.

Youth class notes:

1. The rider must be physically capable and mature enough to control his/her machine at all times, and to ride it safely. This includes stopping, starting, standing still, mounting, dismounting, and putting one or both feet on the ground. The referee has the authority to disqualify a rider who can't safely control his/her machine. *Training wheels are not allowed.*
2. Note that for the Super Mini class, a machine originally produced as an 85cc class minicycle can be modified to fit the class specification and be legal for this class (for example, take an RM85 and bore/stroke it to 99-112cc, and put big wheels on it).
3. Any rider that enters any youth class is considered a youth competitor, and may enter no more than 3 classes - including any amateur classes the competitor may be eligible for.

Event info:

1. **There will be no late or on-site entries. All entries must be postmarked by July 1st, 2016.**
2. If you have questions about the event, contact PRMC as early as possible.
3. Gates open at 10:00AM on Friday, and will be closed and locked at 11:00PM.
4. Tech inspection begins at noon on Friday, and ends at 6:00PM.
5. Mandatory riders meeting at 6:30PM on Friday.
6. Gates open at 6:00 AM Sat. & Sun., and will be closed and locked at 11:00PM each night.
7. On-site camping is only available for competitors and their families. All vehicles must be gone by noon on Monday.
8. All lighting will be turned off at 11:00PM each night, at which point it is "quiet time."
9. Competition begins at 8:00AM each day.
10. All pit vehicles (of any kind...pit bikes, golf carts, ATVs, etc.) must be registered before being used on the event grounds. Registration is \$10 per vehicle.
11. Neither PRMC nor the landowner is responsible for the security of your person or property while on the event grounds.

12. Please do not unnecessarily bring pets to the event. If you must bring a pet, it must be leashed at all times, and you are fully responsible for it and its actions. Naturally all service animals are welcome.
13. All attendees are expected to conduct themselves in an environmentally responsible manner...such as refraining from dumping gas, oil, and antifreeze on the ground.
14. All attendees are expected to clean up after themselves and make use of the trash receptacles provided around the event grounds.
15. No open fires are allowed - grills may be used so long as they are operated responsibly.
16. Glass containers (such as pop/beer bottles) are prohibited from the event grounds. Please make use of aluminum cans and/or plastic bottles only.
17. If you are riding multiple classes, it is your responsibility to ensure that you and your machines are ready to compete at the designated times. If, because of the dual-lane program, you cannot ride in your assigned order in a given class, you will be given a grace period of 5 positions to make your way to the starting line. It is incumbent upon you to make sure you have your machines and whatever necessary assistance from pit crew to make your assigned runs in a timely manner. Rides that are not taken within 5 positions of your assigned order will be forfeited.
18. On Sunday, all riders who have a reasonable expectation of placing in the top 5 in their class must impound their machines in the impound area immediately after coming down the hill. In the event that the same machine is to be used in a later class, inform the impound staff and obtain their acknowledgement before removing the machine from the impound area for the next class. Any adjustments or repairs to the machine in anticipation of its next class must be performed in the impound area. The machine must be immediately returned to the impound area after riding in that additional class.
19. All machines must be operated at idle speeds when going to and from the hill. No other riding is allowed.
20. In the event that a re-ride is necessary for any reason, the rider and machine must report directly back to the staging area without returning to the pits. No adjustments or modifications can be made to the machine, such as gearing changes, although necessary repairs may be made with the acknowledgement of the event referee - for example, if on the ride for which a re-ride is needed the rider crashed and broke the clutch lever, the clutch lever may be replaced before the re-ride is taken. Any such repairs must be affected in the staging area under the supervision of the event referee and/or other PRMC staff.
21. Riders are required to be wearing appropriate protective riding gear, as specified in the AMA rulebook/supplemental regulations.

**2016 AMA Hillclimb
Grand Championship**
July 29th-31st, 2016

22. Riders have 2 minutes to make their attempt on the hill after being directed into the starting area by the referee. In the event that there is a delay in the program greater than those 2 minutes, such as an injured rider needing assistance off the hill, the rider must be ready to make his/her attempt immediately after the hill is declared clear by the referee. If an issue arises at the line that would prevent the rider from making an attempt on the hill, the rider will be asked to move their machine back into the staging area and will be given 15 minutes to fix the issue and return to the starting line. If the 15 minutes expire and the rider is not able to make their attempt, that attempt is forfeited.
23. Note that current AMA pro hillclimb license holders are ineligible to compete in amateur championship events. Former pro license holders must wait a year for eligibility to reinstate.
